Water arrangement

Made Blue 3.5

Clean drinking water for everyone

Many people all over the world still lack access to clean drinking water. Our water arrangement allows us, for each bottle that we put on the table, to donate to Made Blue in order to invest in water projects. In this way, for each bottle, we continue to provide 1,000 times as much drinking water in countries that have permanent water scarcity.

If you have an allergy or special dietary requirements, please let us know in advance. We will take it into account to the best of our ability.

À la Carte
